

LITIGATION SUPPORT SERVICES

MULTIMEDIA SERVICES

Legal Video Services

We can videotape a variety of events including depositions, day-in-the-life videos, mock trials, witness interviews, product liability demonstrations, settlement videos, personal injury videos, mediations, demonstration videos, and construction sites.

CONTENT PRODUCTION SERVICES

Synchronized Deposition Transcripts

Includes converting audio/video files to digital formats. If the exhibit files are included, we will add hyperlinks to each exhibit.

Digital Document/Exhibit Production

Including TIFF, JPEG, and PDF images with OCR text files.

TRIAL SERVICES

Case Preparation and Set Up

Our trial consultants work with your trial team to assist in database creation and maintenance, case creation and maintenance, preparation of exhibits, and preparation of trial and witness notebooks. Our team is also available to help with case presentation strategies and what techniques work best in trial.

Trial Preparation

We work closely with your trial team to seamlessly handle and manage the large volume of transcripts, exhibits and videos connected with your case. We can create complex presentations with edited audio/video transcript clips and pre-treated exhibits. We can also prepare exhibits with complex annotations.

Trial Presentation

Our trial technicians will assist you in presenting multimedia presentations for arbitrations, mediations, trials or any type of hearing.

War Room Set Up

We will assist with the set up and staffing of your war room.

Equipment

We offer a full range of equipment to fit your needs.
